

## ONE ANNAPOLIS INCORPORATED

Choyce Simmons is a committed advocate, mentor, and leader with a deeply personal mission to support others. In her new role as a Community Engagement Specialist, she brings a wealth of experience drawn from her roles as a mother, sister-mom, and educational consultant. Her journey is rooted in both personal and professional development, with a bachelor's degree in Psychology and a double Master's in Human Service Counseling (concentration in Grief Counseling) and Education (concentration in Educational Therapy).

Choyce's purpose is shaped by her own experiences of profound loss, particularly the passing of her mother, as well as the challenges she faced navigating the complexities of special education for her son. These personal struggles deeply influenced her perspective on life and work, fueling her passion to support others through their own difficult journeys. Her story of overcoming these obstacles has inspired her to write books and share her experiences, helping others find hope and healing.

Choyce is also the founder of Beautiful Minds, LLC, and serves as a Trauma-Informed Coach, Grief Support Specialist, and advocate for those dealing with special education needs, especially those navigating learning differences such as Dyslexia.

With a unique approach to community engagement, Choyce manages a team of Community Navigation Specialists, focusing on building relationships, providing resources, and creating lasting connections with students and their families. Her work is defined by compassion, purpose, and the desire to empower others to heal, grow, and embrace their futures despite life's challenges.
